

Will you join me to move the resolution forward?

I don't want to move to one of the other 20+ states in the country that have already presented resolutions to enforce their 10th amendment rights and declare their sovereignty. I have had opportunity elsewhere to lay down roots but always came back home starting a business and raising my family. I don't want to have to deal with the over-reaching, unconstitutional actions, and unnecessary burden put upon the citizens of CT by our federal government.

In this time of radical expansion of government by the Obama administration, it is imperative we act now to protect the citizens of the State of CT. We are already another \$500 million in debt and by allowing Washington to continue to invade our wallets in the name of spreading the wealth, we can not afford this financially. But most seriously, we can not afford to have our country lapse into a place of mediocrity driven by an agenda where we all work for free; that is, all our hard earned money goes to the government for them to decide what is best for us to have in our lives. I have faith in the American people to work hard and use their ingenious minds to create meaningful work. I have hope that the citizens will do the right things for themselves. I know charity begins at home and one can decide for themselves how to help others in need. Layers of beaurocracy are a waste of the fruits of our labor and demoralizing to the very spirit which is exemplified as America's source of freedom.

I trust in God to provide wisdom to all our politicians. But who will listen and do what's right for the people of CT, citizens of the USA?

From the land of the free because of the brave,
